

EXECUTIVE OFFICE OF THE PRESIDENT

OFFICE OF MANAGEMENT AND BUDGET

WASHINGTON, D.C. 20503

BULLETIN NO. 77-8

April 4, 1977

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: Resources for Program Evaluation in Fiscal Year 1977

1. Purpose. This Bulletin provides instructions for the submission of information concerning the resources for program evaluation provided for in fiscal year 1977.

2. Background. The Office of Management and Budget has determined the need to collect and analyze information on the level of Federal expenditures and staffing devoted to program evaluation activities. The information requested by this Bulletin is vital to an understanding of the magnitude of evaluation resources and the ways in which these resources contribute to the achievement of national goals, agency missions, and program objectives. Moreover, increasing concern about the adequacy of data on program performance makes it necessary to assure that accurate information can be provided to the Congress and the public on the actual level of program evaluation expenditures.

3. Coverage. These instructions apply to each executive department and independent agency with more than 800 authorized full-time permanent employees.

4. Definition. For purposes of this Bulletin, program evaluation means the formal assessment, through objective measurements and systematic analyses, of the manner and extent to which Federal programs (or their components) have achieved or are achieving their objectives, or are producing other significant effects of either a desirable or undesirable character, in order to assist future policy and management decisions.

a. The following will be considered as Federal program evaluation activities for the purpose of this Bulletin:

MORI/CDF

(1) Formal studies, surveys, and data analyses for the purpose of determining the effectiveness, efficiency, or impact of a national or regional program.

(2) Systematic assessment of demonstration programs or projects which are expected to have major implication for programs of national or regional scope; except that evaluation activities which are an intrinsic part of the program operations or management should not be reported.

(3) Formal studies, surveys, and data analyses for the purpose of assessing program management processes, procedures, intervention techniques, workload distribution, or productivity.

(4) Assessment and development of program designs to assure that programs, once operational, can be successfully evaluated.

(5) Design, development, and field testing of new program evaluation methodologies.

(6) Synthesis and further analysis of results obtained by several previous program evaluation efforts.

(7) Collection of initial data to help in evaluation design and provide a baseline for subsequent evaluations.

b. The following will not be considered as program evaluation activities for the purposes of this Bulletin.

(1) Design, development, and operation of general data systems or management information systems.

(2) Continuing collection of routine data and general purpose statistics.

(3) Analysis of existing or proposed policies where no programs yet exist (even though authorized) for purposes of appraising the likely costs and effects of feasible alternatives. Although such analyses are often called "evaluations," they are prospective in character; whereas program evaluation is retrospective, aimed at determining what has actually occurred as the result of past program actions.

(4) Basic research and studies intended to increase or foster general knowledge development, but which are not

expected to be used specifically and primarily in policy and management decisions.

(5) Routine, day-to-day monitoring of program operations which is an intrinsic part of program administration.

c. It is recognized that the present extensive variation among Federal agencies and programs will require case-by-case judgments to determine the applicability of the above criteria to agency "evaluation" activities.

5. Reporting Requirements. Departments and agencies should submit a report in accordance with the attached instructions and exhibit to OMB, attention: Evaluation and Program Implementation Division by April 25, 1977. This is a one-time report.

6. Rescission. This Bulletin is rescinded following receipt of the April 25, 1977 report.

7. Inquiries. Inquiries and requests for assistance should be directed to the Evaluation and Program Implementation Division, Office of Management and Budget. (395-4726 or 395-5642.)
